Asbury Woods Launches Interactive Trail Map

The first week of September Asbury Woods will debut a new interactive trail map and visitor experience through Engage by Cell, a recognized leader in mobile technology solutions. The new program will allow visitors to use a QR code to have a dynamic trail map in their hands. "Blue Dot" waypoint locating will use GPS to show visitors where they are on the trail system to enhance navigation and wayfinding. The program will also include points of interest along the trails to provide a deeper level of engagement for visitors who want to know more about the flora, fauna and history of Asbury Woods. Seasonable updates will ensure that there is always something new to learn whether a first-time visitor or a frequent trail user.

Additional Asbury Woods content, videos, quizzes, feedback forms and links to upcoming programs and events will provide a one-stop-shop for all things Asbury Woods. The platform provides easy to use, app-like interaction with the convenience of not having to download a specific app to your smartphone.

To kick off our new platform, Asbury Woods is launching a trail naming contest! Currently there is a short trail that connects the Guided Trail to the east end of the boardwalk trail. This trail is called the Meteorite Trail as a nod to the large rock that sits at the intersection with the Guided Trail. The name meteorite is misleading. In fact, this unique rock is a glacial erratic. A glacial erratic is a rock that differs in type from the composition of rocks native to the area and was deposited in a new location through the movement of glaciers. Glacial erratics can be small pebbles or the size of a building but were all moved from their original location to where they rest due to glacial activity. They often are in unusual locations, don't match the surroundings and often show signs of scouring from movement over the surface of land and ice.

You can be part of Asbury Woods history by submitting your suggestion for a new name for this trail! Use the QR code below to visit our new mobile visitor platform and submit your suggested trail name by November 1. While on the platform, check out the interactive trail map, the points of interest and view upcoming events.

This initiative was made possible thanks to funding from Erie County Gaming Revenue Authority's Building a Better Future: Parks, Fields and Trails Grant Program.

FROM OUR EXECUTIVE DIRECTOR

New Events and Old Favorites

Welcome to fall at Asbury Woods! After a summer full of events, programs, and camps, we are thrilled to welcome back thousands of school students who visit for curriculum-enhancing field trips. Last school year, nearly 10,000 students visited for hands-on environmental education experiences. It's a core part of our mission at Asbury Woods.

Jennifer Farrar, CFRE
Executive Director

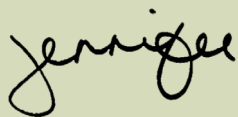

Along with school field trips resuming, we are excited about a brand-new event for the community. Winnie the Pooh's Asbury Adventure will take place on September 21 with morning and afternoon sessions available. This new event aims to raise significant dollars for Asbury Woods' mission while providing a magical experience to our young visitors by connecting the beloved mythical characters of Winnie the Pooh and friends with the very real and natural environment at Asbury Woods. As always, fun and learning will go hand in hand to create a one-of-a-kind day!

It may seem far away, but we are already planning for another spectacular Winter Wonderland! It's our biggest draw of the year, with nearly 15,000 people visiting to see the lights, walk the boardwalk and visit the model train display. This will be our fifth-year hosting in the current format of open every night in December except December 24, 25 and 31. We will continue to offer it as a free program so that it's available for all members of the community, but much like our Monday Music series this summer, we will be asking visitors to consider a \$5 per person donation. Small donations from thousands of people add up to big dollars that we can invest in programs and our property. Visitors who can make the modest donation are ensuring that Asbury Woods remains a community gem that provides a natural setting for everyone to enjoy, a haven for plants and wildlife, and important environmental education programs for children.

Finally, in the new category we also will host a New Year's Eve party at Asbury Woods. For those of you looking for a casually elegant evening in a beautiful natural setting to ring in the new year, we have you covered! See the back cover for details.

Thank you to everyone who has supported us with your donations, program attendance, advocacy, and volunteerism. We couldn't do it without you!

Asbury Woods Recognizes Outstanding Volunteers

Asbury Woods thrives because of volunteers who play a vital role in helping us to achieve our goals of conserving the land, connecting people to nature and inspiring environmental stewardship. We were fortunate to have 225 volunteers spend 4,632 hours of their time caring for the Woods and sustaining our educational programs this past year.

The recipients of Asbury Woods' annual Volunteer of the Year Awards go above and beyond in their efforts to inspire a greater sense of environmental awareness, sustainability and stewardship to visitors. We are proud to announce the distinguished recipients of our annual Volunteer of the Year Awards.

Adult Volunteer of the Year: Allie Leitzel

Allie started volunteering with Asbury Woods in 2022 and has already had a huge impact donating over 400 hours of her time! After retiring, Allie came to Asbury Woods looking for a way to utilize her undergraduate knowledge in biology and chemistry. Since coming on board, Allie has volunteered at festivals, City Nature Challenge, Cyclefest, Children's Water Festival, at countless hikes, and has spent many hours teaching children about nature. Allie states that, "A few of my favorite things about volunteering at Asbury Woods are teaching macroinvertebrates and water quality chemistry tests, as well as working with Asbury Wood's Environmental Educators and learning more about nature."

Allie's dedication and appreciation for nature is an asset to the entire community and Asbury Woods organization. Thank you, Allie, for always stepping in when we need a hand!

Youth Volunteer of the Year: Kate Pelkowski

Kate started volunteering with Asbury Woods in 2022, where she started as part of the Animal Care Crew and later as a summer camp assistant. Since then, Kate has donated over 200 hours of her time. One of her favorite parts of volunteering at Asbury Woods is caring for our resident ambassador animals, particularly the box turtle, Fridge. Kate says, "I love working with all the school groups and seeing a love for science and nature in summer campers." She originally began volunteering at Asbury Woods as part of a school service requirement but has stayed on because she loves the atmosphere and how nice the staff are.

We love having the younger generation as volunteers and hope that even more choose Asbury Woods as their way to give back. Thank you, Kate, for all the time and energy you've put in with our Summer Campers!

New Volunteer of the Year: Jon Hurst

This spring, Asbury Woods put out a call for help for Facilities and Grounds volunteers, and Jon Hurst answered that call! Since then, he has dedicated over 50 hours of his time to projects such as boardwalk repair and other trail maintenance. Jon was familiar with Asbury Woods as a walking destination, often coming with his wife. Jon states, "I enjoy giving back to Asbury Woods because I see it as an asset in Erie that lots of people use and appreciate." Jon says he has found the experience worthwhile and would recommend it to others thinking about volunteering.

We certainly appreciate all the work you have done and hope that others will be inspired by your efforts to volunteer as well. Thank you, Jon, for all your hard work!
